EU licence class	AM	A1
Standard 4kWh range	100 km	70 km
Extended 8kWh range	200 km	140 km
Top Speed	45 km/h	90 km/h

Type 506 Specifications

EU HOMOLOGATION

The AM is like a 50cc motorcycle class in the EU. In most countries it can be ridden without a special licence. The A1 version is like a 125cc light motorcycle. This may be ridden in the Czech Republic and several other EU countries if you already possess a valid car licence.

BODY

Galvanised steel frame with Komaxit coating, aluminium forks and composite body shell and trim.

Length: 200 cm / Wheelbase: 134 cm / Seat Height: 78 cm / Light height: 50 cm / Seat length: 70cm.

Wheels: 110/90 (F) and 130/90 (R) -R13

Weight without battery: 115 kg / Weight with battery: 137 kg (506/03) / 153 kg (506/04).

ČEZETA-TUNED MOTORS

506/03 - nominal 4kW / boost 6kW

506/04 - nominal 5.7kW / boost 8kW

BATTERY PACKS

Čezeta battery pack uses the proven high performance cells integrated with the Čezeta Battery Management System. Range is estimated and varies with many factors related to riding style, weight, temperature and terrain.

CHARGING

Charging at any standard domestic socket (90V-260V) at a rate of 1kW. A charging lead with a Type 2 connector is available as an optional accessory for public charging.

COLOURS

Single colour scheme available as standard. Two tone colour scheme available as an option. Custom colours available on request.

SUSPENSION

Adjustable dual-shock absorbers front and rear.

BRAKES & TYRES

Dual discs front and single rear.

Stand-operated parking brake

Michelin Tyres 110/70 (Front) and 130/90 (rear) - R13

SWAY THROTTLE™

2-way Čezeta Sway throttle with variable KERS (kinetic energy recovery system) recuperative braking. A unique throttle that delivers exceptional control under acceleration and braking. Use of the KERS provides up to 15% additional range in free miles and also reduces wear and tear on the disc brakes.

SKILLSWITCH™

Designed and manufactured by Čezeta, the SkillSwitch™ transforms performance levels, switching is simply a matter of rotating the grip. There's even a reverse gear to make moving the Čezeta easy in all directions.

INCLUDED ACCESSORIES

SkillSwitch™

Crash-detection safety cutoff switch

Charger and 3m extension cable to standard AC socket
